## Definition of wedding services & prices

- “artistic director” also the salon’s wedding co-ordinator, Rachel has 18 years experience as a wedding hair stylist & 15 years as a make up artist. Rachel attends to most of our brides personally, however you can request Rachel as your stylist & make up artist, or if you do not require to see Rachel specifically please indicate on booking form.
- “expert stylist” a senior stylist with extensive wedding experience
- “classic” packages – includes services provided on the day only – no trial ( a consultation may be arranged prior to the wedding day to discuss requirements)
- “sublime” packages – includes 1 pre wedding trial and services on the day. Normally only required for bride – bridesmaids or others available upon request.
- short hair is determined to be chin length or above
- medium hair is determined to be from chin length to top of shoulders
- long hair is determined to be from shoulders to “bra strap”
- extra long hair is anything past the “bra strap”
- blowdry includes shampoo, style blowdry & hot irons (if required) for straightening & finishing.
- set & style includes shampoo (if required), blowdry (if required), tong, straightener, hot roller or velcro roller set – whichever technique is recommended to achieve the desired result. This does not include any form of up styling (including ½ up).
- upstyling – is determined by the time & techniques required to create the desired style (normally a more relaxed style, requiring less time to complete) does not include shampoo & blowdry – extra cost if requested or required. Includes one preparation technique only & minimal styling intricacy (ie simple ponytail, basic “bun”, basic ½ up style)
- creative upstyle - is determined by the time & techniques required to create the desired style. Does not include shampoo & blowdry – extra cost if requested or required. Includes one or more preparation techniques & intricate styling (i.e chignon, side sweep ponytail, textured or stylised bun, most bridal & bridesmaid upstyles)
- “basic makeup” – is a light, natural, daytime look. Perfect for those who don’t wear much make up. This may however not last as long as the “specialist” application. This is not recommended for the bride or bridesmaids.
- “specialist makeup” – is a more formal, wedding make up, perfect for afternoon or evening wear. Ideal for photos & long lasting. The foundation application is a little heavier – but is waterproof. This is the application we recommend for our brides, it can & will still look very natural & soft if that is the required finish, but it will last at least 8 hours. This does not include false lash application.
- “deluxe makeup upgrade” – is the ultimate make up service, the most suitable option for the bride. Includes all skin preparation including primer, hydrator, lip treatments, eye treatments for dark circles, puffiness & lines. Also includes false lash application.

## IMPORTANT NOTE:

**\*service includes shampoo & condition** – but DOES NOT include any upstyling including ½ up. It is often more suitable & will create a better result for long lasting curls, if the hair is washed the night before the wedding. Please discuss with your stylists as to the best option for your chosen styling.

**\*\*service DOES NOT include shampoo & condition** - extra charge of \$20.00 if required. It is almost always better to shampoo the night before to ensure better results for upstyling & long lasting curls. Please discuss with your stylists as to the best option for your chosen styling.
